Preface  
*Norman H. Tennent*  
vi

Introduction  
*Paul Perrot*  
1

### RESEARCH

Historic glass and its interaction with the environment  
*Hannelore Römic*  
5

Instrumental methods of analysis applied to the conservation of ancient and historic glass  
*Jennifer L. Mass*  
15

Modern instrumental methods for the study of the deterioration of vessel glass  
*Simon E T Hogg, David S McPhail, Victoria L Oakley, Philip S Rogers*  
42

Laboratory experiments to simulate corrosion on stained glass windows  
*Hannelore Römic*  
57

Organic coatings for medieval glass  
*Roy G Newton and Angela B Seddon*  
66

Leaching studies of potash-lime-silica glass with medieval glass composition  
*Manfred R. Schreiner, Ingrid Prohaska, Josef Rendl and Christian Wögel*  
72

The deterioration of glass trade beads from Canadian ethnographic and textile collections  
*P. Jane Sirois*  
84

The investigation of glass deterioration as a result of storage systems for waterlogged archaeological glass  
*Naomi Earl*  
96

An appraisal of the properties of adhesives suitable for the restoration of Spanish medieval ceramics  
*Elvira A. Castro and Maria Teresa Doménech Carbó*  
114

The heat deflection temperature of epoxy resins: a comparison of three products used in porcelain restoration  
*Carolina Nunes da Silva*  
132

### PRACTICE

The practical application of tinted epoxy resins for filling, casting and retouching porcelain  
*Fi Jordan*  
138

The difference between dry and wet clay mixing and the effect on the deterioration of Dutch tiles  
*Jan Daniël van Dam*  
146

The conservation of a collection of fire-damaged ceramics  
*Lindsey K. Bogle*  
150
Restoration skill or deceit: manufactured replacement fragments on a Seljuk lustre-glazed ewer
Stephen P Koob

Tension released: an 'exploding' Chinese vase
Charlotte Culham, Janet H Notman and Norman H Tennant

The conservation of ceramics at the State Russian Museum, St Petersburg: case studies in the treatment of gilded porcelain
Raisa Starikova, Liudmila Dmitrenko, Nadezhda Kasatkina, Maria Bessmertnaya, with text by Norman H Tennant

Stained glass conservation at the Isabella Stewart Gardner Museum: putting the pieces together
Valentine H P Talland and Barbara J Mangum

Challenges and solutions in the restoration of vessel glass
Reneé Weijand

Conservation of glass at the Institut Royal du Patrimoine Artistique (Brussels): from the earthquake in Liège to the stained glass of Loppem
Chantal Fontaine

Historic cut glass chandeliers: recording and conservation
Sandra Davison

Five years on: a reassessment of aspects involved in the conservation of glass objects for a new gallery at the Victoria and Albert Museum
Victoria Oakley

Survey of the National Museums of Scotland glass collection
Belén Cobo del Arco

A surprising experience: new challenges for the display of Oriental ceramics at the Starck Pavilion of Decorative Art in the Groningen Museum
Ida Stamhuis

TRAINING

The ceramics conservation course at West Dean College
Kenneth Watt

The training of ceramic and glass conservators/restorers at The Netherlands Institute for Cultural Heritage
Kate van Lookeren Campagne

Conservation education in glass and stained glass at the Antwerp Polytechnic University
Joost MA Caen

Training in stained glass conservation at the Centro de Conservação e Restauro da Batalha, Portugal
Pedro Redol

Training ceramics and glass conservators at Buffalo State College: an American perspective illustrated by treatment case histories
Jonathan Thornton
