

Photographic Materials

The aims over the next 3 years, developed in response to the members are as follows:

- A. To improve our communication with conservation professionals in Latin America, Australia, Asia and Eastern Europe.
- B. To facilitate the application for membership for conservators that has shown interest and enthusiasm in ICOM- CC. To encourage others to join.
- C. To deliver at least 3 electronic newsletters within the triennium.
- D. To organise and implement a joint interim meeting with the Photographic Materials Group of the AIC.
- E. To improve communication with the working groups Glass and Ceramics, Metals and Graphic Documents in order to learn from research performed in these working groups which is of interest to photograph conservation.
- F. To update the address list from our members.
- G. To survey the scientific projects being done in the field of photograph conservation internationally and communicate these to the members of the Working Group Photographic Materials
- H. To make student research available to members.
