Paintings

Our aims over the next 3 years, developed in response to our members are as follows:

A. To improve our communication with conservation professionals in Latin America, Australia, Asia and Eastern Europe.

B. To examine how the working group can better support and promote developments in practical conservation. This may include a specific session at the next triennial meeting.

C. To deliver at least 3 electronic newsletters within the triennium.

D. To organise and implement an interim meeting with an associated publication which will focus on the many aspects of the preparatory layer for works of art.

E. To establish a special collaboration with the WG Scientific Research to consider the phenomena of metal soaps in the paint layer.

F. To support the Paintings working group members with a special interest in icons.

G. To update and develop the Paintings working group section of the ICOM-CC webpage.
